

# Craig Best

**General Manager, National Trust High Peak.  
High Peak Nature Recovery Project**

# Working to protect the land we care for in the Peak District

National  
Trust

# Our plan for the High Peak

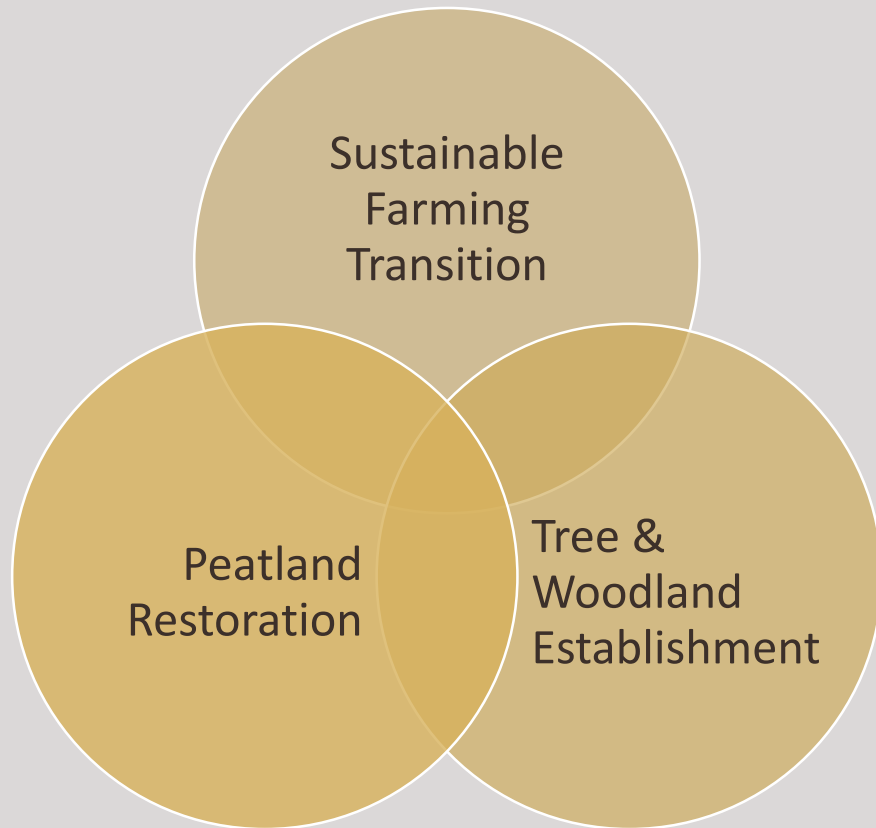

What the High Peak could look like in 40 years

# Our approach to delivery...

We have three core and interlinked workstreams established, resourced and delivering against our objectives. We have clear pipelines of work established for the next 10 years and are actively fundraising against this.

National  
Trust

## Protecting our peatlands

Create wooded habitats through natural regeneration and tree planting

Working across the whole landscape -  
with tenant farmers and graziers

National  
Trust

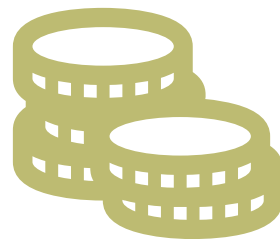

# What will LRS help us achieve?

**9,681 hectares** of land restored for nature supporting our ambition across 12,646 hectares

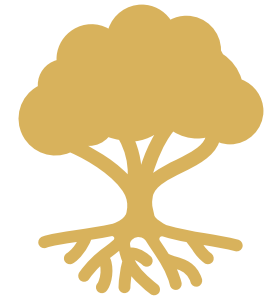

**13 farm tenants** supported into sustainable business models

**£75m** plus investment required for next 20 years

**5,500 hectares** of blanket bog re-vegetated and re-wetted

**1m trees** established
